

# Friends of the Blue Hills

## Trail Volunteer Work Report

**Work date (mm/dd/yy):** 9/4/10

**Report date:** 9/6/10

**Your name:** Bob Flagg

**List Volunteers working with you:**

Tim Leung, Joe Milligan, Kevin Milligan, Eleanor Heidkamp, Leah Staub-DeLong

**Trail Name:** Chestnut Run Path

**Section Name/Description:**

Last 100 yards of trail near Marker 1175

**Work Completed (Please be specific with location of work. Note hazards & potential hazards addressed if applicable):**

There is an existing waterbar (.53 miles on assessment) that have been overflowed and outflow area is heavily silted and higher than trail. We removed debris from outflow, improved the pitch and made the ditch a little deeper and wider to improve flow. Also cleaned side ditch further down the trail of leaves and rocks. Improved connection from ditch to second waterbar just above intersection with Base Path. Removed dirt and rocks from second waterbar and cleared outflow area.

**Total Hours (# of people x hours worked):** 13.50

**Work Remaining:**

This area should be monitored to confirm there is enough slope on the outflow of the first culvert. May need to enhance trench if flow does not improve. Further up the trail, there is another area for a waterbar but it would have to be dug out with rocks added to direct flow.

**Other comments (areas of concern, wildlife sightings, trail markings and signage condition, need for re-route, possible encroachment):**
