Trail Name: Border Path

Section Name/Description:

From Marker 1175 heading up the hill toward 1135.

Work Completed (Please be specific with location of work. Note hazards & potential hazards addressed if applicable):

Cleaned about 200 yards of side ditches of rocks, leaves sticks and dirt. Removed very large rock from side ditch. Improved five dips & waterbars by removing excess dirt from outflow and creating a better inflow area. Light brushing on trail.

Total Hours (# of people x hours worked): 24.00

Work Remaining:

There is a wooden waterbar near the Eustis cutoff that should be replaced with a grade reversal. The existing waterbar is exposed and dangerous for bike riders when it is wet. At the cutoff, the area is very eroded. Should armour this section for bikes as well as hikers.
