Work Completed (Please be specific with location of work. Note hazards & potential hazards addressed if applicable):

Cleaned two grade reversals near Marker 1203 of leaves, dirt and debris. Removed braches from length of trail.

Total Hours (# of people x hours worked. Use # of people x 3.5 for trail maintenance events): 1.25

Work Remaining:

Trail needs to be brushed on the half toward 1175. At .11 miles, there is a stone grade reversal that drops off three feet on trail just below it. Need to use stone to create transition from top to bottom. Also need to clean grade reversal ditch at same location. Similar stretch near Marker 1185 that has a three foot step from top to bottom on trail. Stone could be used for the transition.

Other comments (areas of concern, wildlife sightings, trail markings and signage condition, need for re-route, possible encroachment):

Prepared assessment to update last one done on 1/8/08.
