**Trail Name:** Green Dot Trail Loop

**Section Name/Description:**

Section located at Marker 5364 at the AMC Camp.

**Work Completed (Please be specific with location of work. Note hazards & potential hazards addressed if applicable):**

We finished installing 2 grade reversals on the slope leading down to the day use parking area which were begun August 6, 2011. The outflows were already done earlier. We dug in stone and contoured the trail to create the structures. We also dug out the grade reversal at the top of the hill that was installed in August that had completely filled in with dirt. We also cleaned out and improved the outflows for two additional wooden water bars located further south of the above referenced area along the road leading to the AMC Camp (Green Dot Trail).

**Total Hours (# of people x hours worked):** 21.00

**Work Remaining:**

**Other comments (areas of concern, wildlife sightings, trail markings and signage condition, need for re-route, possible encroachment):**

Since we discovered that the grade reversal installed at marker 5364 in August had completely filled in with dirt by October, we will need to revisit the area in a few months to see how all of the structures are holding up.
