Other comments (areas of concern, wildlife sightings, trail markings and signage condition, need for re-route, possible encroachment):

Went out to check out, flag if necessary, this trail as in the passed some (including myself a few years ago) found it difficult to follow. Today it was found to be well used(!) and easy to follow. Not sure why the increase in traffic(Lantana issue?), but was good to see it getting used. Nice day for a hike... cold, raining :-)
