Report date: 9/18/12

Your name: Mark Nolan

List Volunteers working with you:

Trail Name: Prescott Foot Path

Section Name/Description:

Markers 5321 to 5218

Work Completed (Please be specific with location of work. Note hazards & potential hazards addressed if applicable):

Brushed first 1/2 of trail of overhanging branches and trail to 3-4 feet wide. Cut several 3" thick trees out of the path. Will continue to widen the trail to four feet at each passing on it. Several short sections need more intensive brushing that will be complete within for passings on the trail.

Total Hours (# of people x hours worked): 4.0

Work Remaining:

Brushing trail and widening. It is gradually widened each time we traverse it. About four hours of work remaining.

Other comments (areas of concern, wildlife sightings, trail markings and

signage condition, need for re-route, possible encroachment): The trail T's at the beginning (about 50' in) and is confusing. The actual trail goes to the left. The trail to the right ends. I have been clearing one area and putting brush onto the other for clarity.
