Report date: 3/12/17

Your name: Bob Flagg

List Volunteers working with you:

Trail Name/description (one trail name only): Swamp Path

Section Name (select one from the drop down list): Ponkapoag

Work Completed (Please be specific with location of work. Note hazards & potential hazards addressed if applicable):

Reworked wet area on trail near Marker 5371. Removed dirt that had built up blocking the outflow, moved excess dirt to far end of wet spot to encourage water to flow toward outflow. Improved outflow to allow water to drain.

Total Hours (# of people x hours worked. Use # of people x 3.5 for trail maintenance events): 3.00

Work Remaining:

Dirt that was moved to far side of wet spot still contained significant amount of wet dirt so it needs to dry out and then be reworked. Need to confirm water is draining properly after good rain.

Other comments (areas of concern, wildlife sightings, trail markings and signage condition, need for re-route, possible encroachment):
