7) Oak/pine 15) Spruce/fir												
34) Other habitat (Please explain, up to 254 characters)  Is this plot along a trailside? Yes X No  Site Conditions (please circle)												
<b>Canopy Closure</b> 0-25% 26-50%	51-75%	<u>76-100%</u>										
Aspect North <u>NE</u> East	SE South SW	West NW F	lat									
Soil Moisture Xeric (dry) Mesic	(moist) Saturated	Inundated										
For FBHsurveys, this form should be filled out and returned whether or not invasive species were noted during vour survey. A separate form should be filled out for each trail surveyed. Please note in the comments section below, where you began and ended your survey by referencing the trail names / roadways you traveled and what section of the Blue Hills you surveyed. If a particular trail is not named on the map, please reference your route by using the white trail intersection markers. Please also note the total number of hours yourself and volunteers spent in the field. Ex. # people x # hours = Total Hours  Comments  • 3 people x 2 hour = 6 total field hours / 10 surveys = 36 minutes/survey  Reporter: Pat Artis  Name ID#												

Funded by the United States Department of Agriculture

Mail documentation to: IPANE Volunteer Coordinator, The University of Connecticut, 75 N. Eagleville Road, Unit 3043 Storrs, CT 06269-3043
