Other comments (areas of concern, wildlife sightings, trail markings and signage condition, need for re-route, possible encroachment):

Had a mountain biker sneak up on us. We didn't say anything until a horseback rider showed up. The biker to his credit did dis-mount and asked the rider if they were alone. When we told him that bikes were not allowed in St. Moritz he got very defensive, claiming he didn't have a car and couldn't get to the other sections. We didn't push the issue but he certainly isn't going to change. He gave us some reasons why he should and will still ride there. They opened up the parking area at the Sawcut Notch trailhead. Looks good.
