List Volunteers working with you:

Trail Name: Skyline

Section Name/Description:

Quarry region - just off Wampatuck Rd heading east

Work Completed (Please be specific with location of work. Note hazards & potential hazards addressed if applicable):

We had installed stone last December to support the asphalt from Wampatuck Rd and formed a swale. Returned to add additional stone to the outflow as it was eroding and undermining the grade reversal at the swale. Added about eight feet of stone. Also removed lot of green briar in the area.

Total Hours (# of people x hours worked): 3.00

Work Remaining:

The section of the summit trail that connects to the Skyline needs to be brushed a little better.

Other comments (areas of concern, wildlife sightings, trail markings and signage condition, need for re-route, possible encroachment):
