Between Markers 4184 & 4151

Work Completed (Please be specific with location of work. Note hazards & potential hazards addressed if applicable):

We installed four grade reversal the previous day at our 7/7 event. Reviewed each project and adjusted as necessary. Collected dirt from outflow area and return to trail to soften the grade after the grade reversal. All projects in good shape.

Total Hours (# of people x hours worked): 5.00

Work Remaining:

There is an opportunity to add another grade reversal at the top of the hill before the grade reversal near 4151. Should keep an eye on all this work to make sure they perform when it rains heavily.
