**Trail Name (one trail name only):** Skyline Trail (Quarry section)

**Section Name/Description:**

Worksite approximately 100 yards from Wompatuck Road, just below pipeline crossing the trail.

**Work Completed (Please be specific with location of work. Note hazards & potential hazards addressed if applicable):**

Installed grade reversal just below pipeline crossing the trail. Cleared vegetation and excess dirt from outflow to allow flow of water. Moved some of dirt from outflow and put down on rocky section of Skyline Trail.

**Total Hours (# of people x hours worked):** 39.00

**Work Remaining:**

Need to keep an eye on the outflow to make sure there is enough slope to allow good flow of water. Skyline Trail could use some additional fill to cover the rocky section (approximately 8 yards of fill such as small crushed stone and dirt).

**Other comments (areas of concern, wildlife sightings, trail markings and signage condition, need for re-route, possible encroachment):**

This project is the first of two projects conducted for ParkServe Day.
