

Friends of the Blue Hills

Trail Volunteer Work Report

Work date (mm/dd/yy): 10/16/16

Report date: 10/16/16

Your name: Rob Hirseman

List Volunteers working with you:

Noel Palatas (my wife)

Trail Name/description (one trail name only): Skyline (Quarry)

Section Name (select one from the drop down list): Quarry

Work Completed (Please be specific with location of work. Note hazards & potential hazards addressed if applicable):

Cleared brush and branches/large loose rocks in trail, picked up garbage from parking area to "pool" (small quarry pond on Rattlesnake Hill). Maintenance on grade reversal at 4184 - looked like had not been cleaned out in a couple of years, but was holding up well considering. Removed accumulated gravel and organics, regraded, and used material plus a couple large rocks to block off lowest section of reversal where people were walking around and eroding the structure. Then cleaned up another grade reversal about 1/4 mile up trail. Did not require as much work.

Total Hours (# of people x hours worked. Use # of people x 3.5 for trail maintenance events): 5.00

Work Remaining:

Still have another 2/3 of trail section to brush, do maintenance on drainage structures. Hoping to get out a couple more times this fall if possible.

Other comments (areas of concern, wildlife sightings, trail markings and signage condition, need for re-route, possible encroachment):

Definitely due for re-blazing, maybe some graffiti removal.
