Performed minor brushing near Marker 4229 and cleaned side ditch from wetland area. Also performed minor brushing remaining of trail. Prepared reassessment of trail.

Total Hours (# of people x hours worked. Use # of people x 3.5 for trail maintenance events): 4.00

Work Remaining:

Trail needs to be remarked as it is difficult to follow in some places and remaining blazes are pretty faded. Also need to perform a good cleaning at the two culverts near the beginning of the trail. This should be done in summer when the flow thru the culverts will be minimal. Also need to perform a major cleanup near party spot at .38 miles. Two trail markers (4236 on Adams Path and 4229) are missing. Will contact DCR (Maggi Brown) for replacement.

Other comments (areas of concern, wildlife sightings, trail markings and signage condition, need for re-route, possible encroachment):
