

Friends of the Blue Hills

Trail Volunteer Work Report

Work date (mm/dd/yy): 9/7/17

Report date: 9/8/17

Your name: Paul Brookes

List Volunteers working with you:

None

Trail Name/description (one trail name only): Ski Jump Path

Section Name (select one from the drop down list): Quarry

Work Completed (Please be specific with location of work. Note hazards & potential hazards addressed if applicable):

Walked path up to the top of the ski jump, picked up trash at summit. Happy to find less trash than last year. Close to intersection of Ski Jump Path and Murphy Path found a blow down, trunk approx 6" diameter, fallen across the path. Sawed through trunk and moved to side of path.

Total Hours (# of people x hours worked. Use # of people x 3.5 for trail maintenance events): 1.00

Work Remaining:

None

Other comments (areas of concern, wildlife sightings, trail markings and signage condition, need for re-route, possible encroachment):

The DCR map & path do not correspond, the intersection of the Ski Jump path with the Pipe Line is 50 yards further south than indicated by the map (which claims it is at intersection marker 4205). Marker 4205 is aligned with where the ski jump itself used to exist, but the path is next to the ski jump
