Description - This loop trail takes you through some beautiful, wooded trails that are less traveled. There is a good hill to get your wind up at the beginning but much of the walk is flat.

A couple of tips just to help you on your way:

- 1) Your first turn will be at marker 1175. You'll take a left here onto Chestnut Hill Path. You'll cross a brook almost immediately and then turn right at which you will immediately find a fork. Turn left to onto Base Path (which will lead you to Jeffries). If you turn right, you'll be on Eustis. Hiker's choice!
- 2) At 1182 you will turn off Base Path and bear off right to Jeffries but it's a little hard to see. You'll cross a very small brook (which is mostly dry) and bear right to go straight up the hill. You'll see a wire enclosure to your right as you head up the hill.
