

Figure Eight Loop from Unquity Road

By Lorna Jane Norris

Hike # and title – Figure eight loop in the 1100s

Type and difficulty of trail - loop - moderate to difficult

Distance - 5.34 miles

Elevation – 800ft

Parking and starting point - Park on Unquity road at the fire gate at 1214.

Description - This loop trail is rated moderate to difficult for two reasons: 1) There's 800ft of elevation with some rockier paths, 2) There may be some navigation required for the trails in the southern section of the 1100s which might be less familiar. Bring water, bring a friend, bring this map and use it often! It's a varied hike for those of you who love to explore and be challenged.
