

## TRAIL ASSESSMENT FORM

Doc. #		Trail Name	Laurel Path	Trail Type:	Wide	Condition	Fair
<b>Route:</b>	<b>Laurel Path</b>						
<b>Recent Weather:</b>	<b>Sunny and dry</b>						
<b>TRAIL LANDMARKS</b>	<input type="checkbox"/> Laurel Path is the first path on the right past the swampy area as you're heading west on Old 128. It is approximately .3 mile from the parking lot (5620). It is not on the current "official" Blue Hills map (2014).  I did not approach Laurel Path heading west on Winnemoiset because of obstacles on Winnemoiset.						
<b>MINOR &amp; MAJOR PROBLEMS AREAS</b>	Laurel Path has a leaner about .05 miles from the Old 128 end. It could use a little bit of brushing, too, and possible removal of a tree arching over the path.  Junction numbers are needed. They're neither on the map nor the trail, though the Winnemoiset end of the trail has a brown sign with 5613 on it.						
<b>DISTANCES TO MAJOR INTERSECTIONS</b>	<input type="checkbox"/> The trail goes for about .1 mile between Old 128 and Winnemoiset. I93 separates this leg of Laurel Path from the longer section of the trail north of I93.						
<b>Report prepared by:</b>	Jessica Baumgart	<b>Assessment date:</b>	8/27 and 9/3/2016
