Work Completed (Please be specific with location of work. Note hazards & potential hazards addressed if applicable):

Cleared series of five dips West of 1120 - some of them were almost gone, also cleared eight dips/waterbars from 1125 East to water crossing. Moved rocks into place to keep water in brook and off the trail. Added rocks around large culvert at water crossing. Lightly brushed trail.

Total Hours (# of people x hours worked): 18.00

Work Remaining:

Could dig in some rocks at top of hill above 1120 as a grade reversal. The dips are eroding in a short period of time so need to do something more permanent.
