My section is from 1175 to Unquity Road. I cleared the small branches from the path, trimmed branches that were beginning to block the path, and cut (with the help of a passing biker) a small tree down that had broken about fifteen feet up with caused the top section to overhang the path.

Rake he leaves out of the rain channel to the first water bars

Other comments (areas of concern, wildlife sightings, trail markings and signage condition, need for re-route, possible encroachment):

Path looks to be in good shape. At some point water bars could be dug a bit deeper.
