Cleaned wooden waterbar just north of Marker 1140 (noted at .84 miles on assessment) of debris, especially in outflow area.

Added new grade reversal just north of structure noted above. Evidence of old cut in side berm of trail so installed new ditch.

Spread crushed stone delivered by DCR to intersection with Border Path near Marker 1135 to fill in eroded area.

There is still more work to be done on two grade reversals further to the north. One needs to be reestablished and the debris (mostly pine branches) needs to be removed from outflow area.

Also need to get DCR to deliver some dirt near Marker 1135 so the crushed stone can be covered.
