

# Friends of the Blue Hills

## Trail Volunteer Work Report

**Work date (mm/dd/yy):** 8/21/16

**Report date:** 8/23/16

**Your name:** Bob Flagg

**List Volunteers working with you:**

**Trail Name/description (one trail name only):** Skyline South Trail

**Section Name (select one from the drop down list):** Blue Hills

**Work Completed (Please be specific with location of work. Note hazards & potential hazards addressed if applicable):**

Removed one downed tree and one leaner in the section near Houghton Path. Cleaned one waterbar on the section leading to summit past Marker 1083. Removed some large rocks near the summit that had been rolled onto the trail and drainage ditches. It appears these rocks were moved maliciously as they had to be dug out from their original location and it is unlikely they could move by themselves. Had to add some rock below one of the steps as it became unstable when the original rocks were removed.

**Total Hours (# of people x hours worked. Use # of people x 3.5 for trail maintenance events):** 3.00

**Work Remaining:**

Would like to replace wooden waterbar just before first intersection with Houghton Hill Path (heading from the east) with a grade reversal as the waterbar is loose. Hope to address this at the September work event.

**Other comments (areas of concern, wildlife sightings, trail markings and signage condition, need for re-route, possible encroachment):**
