

Friends of the Blue Hills

Trail Volunteer Work Report

Work date (mm/dd/yy): 2/15/09

Report date: 2/16/09

Your name: Bob Flagg

List Volunteers working with you:

Robert Romeri, Caleb Blankenship, Joe Woodman, Bob Mazairz

Trail Name: Laurel Path

Section Name/Description:

50 feet from the intersection with Bouncing Brook Path

Work Completed (Please be specific with location of work. Note hazards & potential hazards addressed if applicable):

Dug out buried culvert and moved excess soil and rocks to fill in the eroded section of trail. Removed significant amount of fill on the outflow side of the culvert. Cleared downed branches from stream above the culvert.

Total Hours (# of people x hours worked): 20.00

Work Remaining:

Culvert needs to be monitored going forward to confirm it does not fill in. If culvert fills in, water will start to run over the trail and flow down the trail. If the culvert continues to fill in, it may be better to allow the water to flow across the trail and it can be improved to reduce the removal of soil from the trail.

Other comments (areas of concern, wildlife sightings, trail markings and signage condition, need for re-route, possible encroachment):

Forward completed electronic form to: Dexter Robinson @ dexpdoc@hotmail.com
