

# Friends of the Blue Hills

## Trail Volunteer Work Report

**Work date (mm/dd/yy):** 4/26/14

**Report date:** 5/16/14

**Your name:** Jessica Baumgart

**List Volunteers working with you:**

Caleb Blankenship, Ben Houston, Craig Hobel, and Pete or Steve or ... ? Forgot his name and Ben doesn't remember either. (I need to follow Caleb's example about writing names down.)

**Trail Name/description (one trail name only):** Braintree Pass Path at a bend in the trail between 3155 and 307

**Section Name (select one from the drop down list):** Chickatawbut

**Work Completed (Please be specific with location of work. Note hazards & potential hazards addressed if applicable):**

We debarmed about twenty feet of trail to allow water to flow from uphill, across the trail, and down the hill further. This work should solve puddling and erosion problems.

**Total Hours (# of people x hours worked. Use # of people x 3.5 for trail maintenance events):** 4.00

**Work Remaining:**

none

**Other comments (areas of concern, wildlife sightings, trail markings and signage condition, need for re-route, possible encroachment):**

We took about an hour to work on this project while working on the part of Braintree Pass Path closer to 3024 with the larger group. I included the total time of all 10 people on Braintree Pass Path on another work report form. / Jessica found the drain side of an old pipeless culvert near a very large hemlock tree. We searched for the inflow side uphill across the trail and have some ideas about where it might be, but weren't able to identify a distinct input place for that outflow.
