Trail Volunteer Work Report

Work date (mm/dd/yy): 11/21/08

Report date: 11/21/08

Your name: Cheryl Lathrop

List Volunteers working with you:

0

Trail Name: Massachuseuck Trail

Section Name/Description:

2094 to 2171

Work Completed (Please be specific with location of work. Note hazards & potential hazards addressed if applicable):

Hill portion: Outlined sides of trail with logs for first 100'. Marked trail start with rocks. Now trail start is findable!

Portion of trail across asphalt road (not my trail): Outlined sides of trail with logs for first 100' so can find where trail picks up when cross asphalt.

Portion in middle that crosses triangle between asphalt and green dot: Totally cleaned out and brushed this short section. Very confusing where multiple trails meet and maintenance area with dirt piles and many unofficial cut-throughs. Now official section of trail is well marked with rocks at beginning and logs along sides.

Total Hours (# of people x hours worked): 3.00

Work Remaining:

brushing top half of trail

Other comments (areas of concern, wildlife sightings, trail markings and signage condition, need for re-route, possible encroachment):

At 2171 - Need new "no-bike" sign as trail goes up hill (only small portion remains; rest is ripped off). Need "no-bike" sign at both ends of portion that crosses triangle between asphalt and green dot. "No-bike" sign on trail on other side of asphalt (not my trail) is intact. Total of 3 "no-bike" signs needed.

Much traffic there where all trails meet. Every single person thanked me for working on the trail. A good feeling!
