

Friends of the Blue Hills

Trail Volunteer Work Report

Work date (mm/dd/yy): 10/14/08

Report date: 10/15/08

Your name: Walter Granda

List Volunteers working with you:

None

Trail Name: Skyline

Section Name/Description:

Rt 28 to Hillside

Work Completed (Please be specific with location of work. Note hazards & potential hazards addressed if applicable):

Parked on Rt 28 and traveled west to Marker 2117. The trail was a good condition did some brushing, removed some fallen branches and rocks from the trail. Also cleared three drainage areas on Buck Hill. Returned to car and drove to Hillside Ave. From parking area at Hillside walked east to Trail Marker 2117. The section was also in good condition did some brushing and picked up trash.

Total Hours (# of people x hours worked): 3.00

Work Remaining:

From the parking area on Hillside traveling east for .81 miles there is as small amount of standing water that collects on the skyline trail. The area is just past the green trail next to a large fallen tree. It appears that at one time someone put in a drainage ditch but the water is still collecting on the trail. I wasn't sure what work needed to be done to fix the situation. A possible solution is to fill in the low spot and redo the drainage ditch. Not a major issue now but could be a problem during the spring.

Other comments (areas of concern, wildlife sightings, trail markings and signage condition, need for re-route, possible encroachment):
