Trail Volunteer Work Report

Work date (mm/dd/yy): 11/29/09

Report date: 11/29/09

Your name: Jim Kaemmerlen

List Volunteers working with you:

0

Trail Name: Ayer Trail

Section Name/Description:

Houghton - 2000's

Work Completed (Please be specific with location of work. Note hazards & potential hazards addressed if applicable):

Removed fallen limbs from wind storm, and selectively removed small pines from trail edges.

Total Hours (# of people x hours worked): 1.00

Work Remaining:

This entire trail is 'carrige path' width, and should be maintained to allow visitors to walk side by side. While removing rows of saplings from the edges all at once can be a bit shocking, I'd propose that selective removal of plants continue until original trail condition is restored.

Other comments (areas of concern, wildlife sightings, trail markings and signage condition, need for re-route, possible encroachment):
