Trail Name: Fells Path

Section Name/Description:

Houghton - 2000's

Work Completed (Please be specific with location of work. Note hazards & potential hazards addressed if applicable):

Removed blow-down limbs from trail and cut small drains for large puddles

Total Hours (# of people x hours worked): 0.50

Work Remaining:

This trail is consistantly wet, for a long section south of 2152. My efforts today did not amount to much. Where the trail has some slope to it, a few water bars will work. Below there, it flattens out and some serious drains, side ditch or heaped earth is required to establish a good footbed.

Other comments (areas of concern, wildlife sightings, trail markings and signage condition, need for re-route, possible encroachment):
