Cleared branches from trail. Trimmed branches overhanging trail. Cut up dead trees and moved them back from trail and off live trees, to avoid interfering with new growth. Cleaned out culvert at 2194, and raked leaves from other waterbreaks. Picked up a bagful of trash from trailhead area.

Total Hours (# of people x hours worked. Use # of people x 3.5 for trail maintenance events): 3.00

Work Remaining:

Trash removal from additional trailheads.

Other comments (areas of concern, wildlife sightings, trail markings and signage condition, need for re-route, possible encroachment):

General observation is that the Blue Hills forest continues to suffer and decline in thickness and quality. A lot of dead trees have come down, and new growth is thin.
