

# Friends of the Blue Hills

## Trail Volunteer Work Report

**Work date (mm/dd/yy):** 10/20/16

**Report date:** 10/20/16

**Your name:** Bob Vogel

**List Volunteers working with you:**

n/a

**Trail Name/description (one trail name only):** Green Hill Path

**Section Name (select one from the drop down list):** Neponset

**Work Completed (Please be specific with location of work. Note hazards & potential hazards addressed if applicable):**

Heading north on what would have been 95 Northbound, the trail was blocked by several cedar trees that had been overgrown with vines and had fallen across the trail. I cut an opening 8-10' wide through and threw the tree tops and vines down the embankment on both sides. Not 'perfect', but at least the trail is now open to walk, instead of crawl, through. I also picked up sticks, cut back thorny bushes along the path up to 6103.

**Total Hours (# of people x hours worked. Use # of people x 3.5 for trail maintenance events):** 1.75

**Work Remaining:**

The whole Fowl Meadow area has lots of vines growing, and hours could be spent cutting them back as they are starting to grow up in the trails..

**Other comments (areas of concern, wildlife sightings, trail markings and signage condition, need for re-route, possible encroachment):**

I was actually out there to work on Field Path, see other report attached.
