Other comments (areas of concern, wildlife sightings, trail markings and signage condition, need for re-route, possible encroachment):

There is a huge tree down at 6700 which may require a chain saw or several people to remove. This tree is actually more on the Skyline at 6700, but interferes with Cosmos Path. Trash near the 6900 mark continues to be a huge problem not easily resolved. This trip I had the opportunity to pick up most of the trash near Royall Street between 6700 and 6850. Significant "party trash" found and picked up this time between 6670 and 6830 on the spur that comes from Green Street.
