**Work Completed (Please be specific with location of work. Note hazards & potential hazards addressed if applicable):**

Removed branches and fill from north side of ditch for about 130 yards and opened up south side ditch for about 20 yards. Used rocks to add definition to the side of the ditch to prevent water from entering the trail. Used fill removed from ditch to add back to the tread to fill in some of the area between rocks on the trail. Brushed section of trail. Started to clear culverts near 4180.

**Total Hours:** 40

**Work Remaining:**

Need to finish cleaning ditches near 4180 and two more culverts near the intersection with Skyline Trail. Need to review the work completed at Notch to ensure the work done solves the problem with water running onto the trail.

**Other comments (areas of concern, wildlife sightings, trail markings and signage condition, need for re-route, possible encroachment):**
